

Subordinate Legislation Act 1994

NOTICE OF DECISION

F-FACTOR SCHEME ORDER 2016

I, Lily D'Ambrosio, Minister for Energy, Environment and Climate Change, and Minister responsible for administering the **National Electricity (Victoria) Act 2005**, give notice under section 12J of the **Subordinate Legislation Act 1994** as follows:

A Regulatory Impact Statement (RIS) was prepared in relation to the proposed f-factor scheme Order 2016. The RIS was advertised to invite public comment on 10 October 2016. Four submissions were received and considered.

I have decided that the proposed f-factor scheme Order be made with the following amendments:

In clause 10, the Ignition Risk Unit (IRU) target for AusNet Services for the 2019/20 financial year has been adjusted to 221.1. This has been done in response to the submission from AusNet Services, which corrected its voltage data for 16 of the 656 historical ignitions that were used to calculate AusNet Services' IRU 2019/20 target.

Dated:

9/12/16

Hon Lily D'Ambrosio MP

Minister for Energy, Environment and Climate Change
